DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 6-9, 11 and 12, drawn to a method of adding an organic base to a polymer, classified in class 525, subclass 374+.
 - II. Claims 9 and 10, drawn to a method of adding both an acid and a base, classified in class 525, subclass 374+.

The inventions are distinct, each from the other because of the following reasons:

2. They represent different processes with different products produced. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
